Subject: Re: Is the plan working?

Aerial - you'll have funding in 10 mos. - year.

Tunnel - 15-18 months before the first shovel of dirt moves.

I don't have confidence our formula captures all the variables: land use, econ dev, life span of project.

This has taken tremendous heavy lift from you folks.

If you go down this road, and decide 15-24 months from now to go back to aerial option, that delay will have added costs that could knock the project off our priority list entirely.

Kevin Hall
Press Secretary
Virginia Gov. Tim Kaine

Let's not hold that against him. :-)

"If I know everything that is going on, then not enough is happening." Brenda Turner, COS, Governor Huckabee
